

FIU - Florida International University - Physical Climatology

The Department of Earth & Environment (<http://casgroup.fiu.edu/earthenvironment/>) invites applications for a tenure-track/tenured, open rank position in Physical Climatology to begin Fall 2011. We seek an outstanding scientist with research focused on climate modeling and analysis. The level of appointment is open, depending on the candidate's qualifications. Duties include teaching undergraduate and graduate courses in Atmospheric Sciences, including Physical Climatology, General Meteorology, and other classes based on the candidate's speciality. The successful candidate is expected to establish a vigorous research program, supervise MS and PhD students, and obtain external research funding. FIU offers excellent opportunities for collaboration with the National Hurricane Center and the International Hurricane Research Center, which are located on the FIU campus, and NOAA's Atlantic Oceanographic and Meteorological Laboratory, located nearby. A Ph.D. in Atmospheric Sciences or related field is required at the time of appointment. Applicants should send an application package including complete curriculum vitae, statements of teaching and research interests, and contact information for at least three references to: Dr. Haiyan Jiang, Dept. of Earth & Environment, PC-344, Florida International University, Miami FL, 33199 (email: haiyan.jiang@fiu.edu). FIU is part of the State University System of Florida and is an equal opportunity/affirmative action/equal access employer. Applications will be reviewed beginning February 4; the search will remain open until the position is filled.
