

Land Steward

The College of Arts and Sciences is currently seeking a Land Steward. The Land Steward manages the center's operations, and assures that individuals and groups that use the center/property properly.

Duties include:

- Assures that perimeter fences and irrigation systems are in good repair, grounds are mowed and maintained.
- Works collaboratively with faculty and student groups to ensure a safe and successful experience.
- Executes standard operating procedures developed by Agroecology Management Team.
- Contributes to standard operating procedure refinement and, development.
- Promotes continuous improvement through quality management.
- Supports and advance the Agroecology's Center's Farmer's Market.
- Facilitates a range of gardening and environmental education and training programs.
- Develops beneficial relationships with resource-related professionals in the community.
- Leads special programs and projects advancing sustainability-level stewardship objectives such as invasive species control and habitat restoration.
- Promotes skill-building, horticultural education and cultural programs and events.
- Provide regular updates and written progress reports, timelines and needs assessments as requested by managers.
- Works with faculty to identify sources of income and external funding opportunities.
- Ensures the unique ecology and character of the center is maintained during its development as a FIU research and teaching center.

Minimum qualifications: Master's degree in an appropriate specialization; or a bachelor's degree in an appropriate specialization and six years of experience.

Salary: \$35,000
